EXPERIENCE THE SPIRITUAL JOURNEY OF HAJJ WITH OUR EXCLUSIVE COVERAGE

Our channels—Islam Channel, Islam Channel Urdu, and Islam Channel Bangla—are viewed by millions worldwide. In non-Muslim countries like the UK, they hold a special place during Hajj, serving as a focal point for families to immerse themselves in the spiritual journey of Hajj, its rituals, and its profound significance.

According to BARB, Islam Channel was the most viewed channel during Ramadan 2025 among South Asian and international channels in the UK, further reinforcing its unique reach and impact during key Islamic occasions.

Islam Channel provides comprehensive coverage of Hajj, bringing the holy pilgrimage to life for those who cannot be there in person offering round-the-clock coverage, insightful programming, and live broadcasts from Makkah.

Our largest viewership peaks during Ramadan and the Hajj seasons and the days leading up to it. With last year's TV viewership figures at 7.3 million in the UK alone, we anticipate further growth in 2025.

WHY TV ADVERTISING WORKS

In the UK, almost 27 million households have a TV, accounting for 37% of the average person's overall media day and 67% of the average person's video diet. More importantly for advertisers, TV accounts for 91% of all video advertising that is seen (Royal Television Society) (Thinkbox).

Popularity of TV Advertising: TV advertising continues to be a stronghold for online companies, which were the highest spenders in this category. In the first half of 2023, online businesses invested £559.9 million in TV ads, reflecting a 37% increase compared to the same period in 2019 (Royal Television Society) (Thinkbox).

ROI and Advertising Spend: TV advertising remains the most effective medium, delivering an average return on investment (ROI) of £4.20 for every £1 spent, significantly higher than other media (Marketing Beat) (Royal Television Society).

Trends in TV Viewership: In 2023, UK viewers spent an average of 2 hours and 40 minutes daily watching broadcaster TV, with an additional 39 minutes on subscription VOD services. Nearly three-quarters of the population now have access to an SVOD service (Thinkbox).

Market Insights: The dynamic landscape of TV viewing has stabilised, showing slight growth in

total viewing levels. Despite the rise of platforms like TikTok and YouTube, traditional TV viewing remains robust (Royal Television Society) (Thinkbox).

Islam Channel's Impact: Partnering with a trusted brand like Islam Channel offers a unique opportunity to connect with a defined audience. Throughout the years, the NHS, UK government, and other organisations have leveraged Islam Channel for campaigns aimed at British Muslims.

"Success depends on a fully integrated campaign... There is a time and a place for targeting through the obvious channels, digital and CRM, but there is also a time to talk to the nation and our TV campaigns do that brilliantly and successfully."
